Building Improvements to Serve You Better

The library will be receiving some much anticipated renovations this summer. Planned changes include:

- a popular materials lounge just inside the front door
- three individual-use study rooms
- a dedicated youth computer area within the youth library
- an improved service desk
- additional mobile device charging stations
- a better organized AV collection
- a used book sale room

All of this will be done with savings from the current operating millage - there is no need for additional funding for this improvement project.
